PLOT WITH APPROVED PROJECT AND ADJACENT 3-BEDROOM HOUSE, PRAIA DA LUZ

Praia da Luz

Detailed description

On a spacious plot of 909m², the opportunity to undertake a truly special project is envisioned. With the approval of the renowned Atelier Mario Martins, this space will be transformed into a 440m² residence, next to a charming 3-bedroom house built in 1983. This exceptional architectural project, ready to be built, proposes a distribution over two floors, including a spacious garage with room for up to three vehicles.

The modern design of the residence promises a unique experience, with breathtaking views of the beach and the majestic "Rocha Negra" of Praia da Luz. On the ground floor, a spacious en-suite bedroom and a leisure room with direct access to the pool area are carefully planned. On the first floor, two spacious suites await, each connected to a terrace that offers sweeping views. The kitchen, seamlessly integrated into the living/dining area, completes this elegant environment.

Every space in this residence benefits from large windows, creating a perfect fusion between internal comfort and the beauty of the surroundings. More than a simple real estate project, this proposal represents the promise of a refined and welcoming lifestyle, where architecture intertwines uniquely with nature, providing a truly special environment.

This plot is adjacent to an already-built 3-bedroom house. You can check its characteristics in REF: C3867.
